

Learning Styles

The different **ways**
in which we learn.

Multiple Intelligences

The different ways
in which we **show**
what we've learnt.

Learning Styles: people learn in many ways - by seeing, hearing, or experiencing things first hand. Most people are better or prefer one way of learning over another.

1. Visual
2. Auditory
3. Kinesthetic

Multiple Intelligences: people can *show* their intelligence in 8 different ways:

1. Verbal: good with words
2. Logical: good with math and logic
3. Spatial: good with pictures
4. Body/Movement: good with activities
5. Musical: good with rhythm
6. Inter personal: good with communication
7. Intra personal: good with analyzing things
8. Natural: good with understanding natural world

Everyone has strengths, but different people have different strengths.
